

# Vertical carousels Eurot

## Specifications

1. Steel structure
2. Tray rotation carousel
3. Picking bay
4. Operator interface
5. Electrical cabinet
6. Shelf configuration differentiated by unit load
7. Work counter

## Automatic vertical rotating system for storage and picking.

Eurot is an automated storage system with rotating shelves. It is the ideal solution when it is necessary to operate quickly and ergonomically in limited spaces.

The rotating shelves always follow the shortest route to present the material to the operator in the consultation area.

## Features

- Optimisation of space and working times
- Traceability of materials and operations
- Remote archive access and consultation
- Protection of goods
